

Coaching 2011

In this PDF brochure you will find all the info you need about the coaching opportunities with Martijn in the 2011 season.

Scroll down and have a look, If you have any questions, please feel free to ask

Wind tunnel coaching

Wind tunnel coaching is a great new sport and a way to learn flying skills more quickly, like AFF in skydiving, everyone starts out in the tunnel with belly to earth flight. After that you can start to fly on your back, sitfly, and then all the transitions around all axes and much more!

Flying in the windtunnel is a lot of fun and very, very addictive. ToraTora introduced Martijn to the wonderful world of wind tunnel flying, in 2006 my first tunnel experience was in Bedford (UK). Now I have hundreds of hours of wind tunnel time, and ready to teach you becoming a better flyer,

To biggest advance of flying with a coach in the tunnel is that you really learn to fly with the right techniques & inputs, this will give you a solid set of skills that you can use during your tunnel flight and skydives.

Tunnel flight 60 minutes incl. coaching: € 760 per hour.

Coaching FreeFly

Be able to fly with your friends, to fly fast and accurate.

Creating good habits from the beginning is the easiest way to build a solid foundation of freefly skills. Whether you're just starting out and want to learn good techniques, or a more experienced freeflyer looking to refine your skills, I will provide you with a solid reference in the air. In addition, we shoot a video to help you learn faster during the debrief. Regardless of your flying abilities, working individually with a coach creates a learning environment in which you can be safely challenged to push your limits and raise your awareness.

Because I think it is impossible to learn somebody something in one or two jumps, I only can coach you for a full day. According your budget we can make up to 10 jumps a day.

Coaching fee : € 200 per day (weekend)
€ 150 per day (weekday)

Coaching cameraflying

If you want to become a better skydiving filmer, or photographer, if you want to be faster in approaching formations of people during the freefall, learn better flying skills, make better photo's. Than take the camera coaching day by Martijn.

For a full day, you follow a individual based program with jumping and filming exercises for practice. According your budget I can jump with you on your assignment jumps to film you from the outside. That footage, together with yours, we use for debriefing. This way you will be optimal challenged and learn quick.

To have a fully focused student and coach I only operate on a daily basis, and for that day, I'm only working with you. Besides my daily coaching fee you pay for the jumps that you and the coach make.

Coaching fee : € 200 per day (weekend)
€ 150 per day (weekday)

Coaching A & B License and formation skydiving

Creating good habits from the beginning is the easiest way to build a solid foundation of FS or belly fly skills. Whether you're just starting out and want to learn good techniques, or you are an intermediate belly flyer looking to refine your skills, I will provide you with a solid reference in the air, with clear in flight instructions. In addition, we shoot a video to help you learn faster during the debrief.

Regardless of your flying abilities, working individually with a coach creates a learning environment in which you can be safely challenged to push your limits and raise your awareness.

During the day we train and review your canopy control and landings skills, your safety procedure and additional safety training where needed. It is a busy day, and your learning curve will go steep up !

Coaching fee : € 200 per day (weekend)
€ 150 per day (weekday)
